# Lunch Rooms

**We have something for every purpose.**

At Portabuild, we support Kiwi's who need practical, functional and comfortable building solutions for temporary and permanent use. We offer a wide range of standardised and customised options to suit different industry needs, from portable homes, classrooms, office spaces and toilets.

Our spaces are fully customisable, with the option to choose both interior and exterior fittings.

All buildings are constructed to NZ building standards and delivered on-site for immediate use. Our units are engineered for a 50-year lifespan. All of our buildings are code compliant and built to H1 insulation standards.

Our factory has a rigid QA process and highly trained staff with vast experience in various building trades and professions.

Our lunchrooms are a perfect place to enable your employees to have a warm and clean place to enjoy their breaks and allow you to extend your site to accommodate staff. Whether you need a portable staff lunch room for two or 30 people, we have the solution for you.
